

H2Only Pure Water - The Riello

H2Only's state-of-the art installation at The Riello luxury apartment building is the first of its' kind in the USA.

Pure distilled water is plumbed directly to each of 224 units. This supply of pure drinking water goes to a spigot on the sink and to the refrigerator for ice and chilled water.

A survey of residents of The Riello showed that 100% of respondents were pleased with the pure water system and 95% would recommend it to friends and family.

H2Only distilled drinking water systems remove 99.9% of all contaminants and impurities in source water, and kill any bacteria present. This means that users are protected in the event of a water emergency.

We fill up our glass bottle with this pure water every day.

- V. Agarwal, The Riello resident

I enjoy the H2Only Water all the time. The water is great tasting and convenient.

- S. Maclaren, The Riello resident

Thank you for considering the health of Saint Moritz residents.

- Joe Altobell, The Riello resident

Delicious Pure Water in 224 Apartments!
